  - Expression - Understanding the Category
  - Motivation

## **Chorus Updates**

**Capital City** - From Kim Newcomb - we are doing well! We are having zoom rehearsals every week, working towards making a virtual choir performance to share, doing fun activities, and continuing to have masterclasses with phenomenal coaches. We haven't had any in person rehearsals yet, but we look forward to doing so when we feel safe.

**Cincinnati Sound** - They are doing very well. Because I am mentoring Jack with our Director Mentor Program, he and I have met via Zoom and have had some great discussions. He has a lot of great questions and is open to learning about barbershop and SAI. We Zoomed this week and last week and discussed song selection, attendance policies, riser placement and the Judging Categories. He is hoping that they can plan some in person rehearsals, outside, with masks and socially distanced starting in April.

**KTown Sound** - This is what I received from their director Kellie - KTS has started In Person rehearsals every other Monday. We wear mask and face shields and we are practicing social distancing. It's actually going very well. Tons better than I expected.
